SAFETY MANAGEMENT SYSTEMS.

I can advise on, prepare or audit Safety Management Systems (SMS) and Competency Management Systems (CMS). I specialise on the training and assessing of Safety Critical (SC) staff. I have an extensive portfolio of this type of work and I cover a very wide range of heritage railways, standard and narrow gauge, plus some commercial railway operations and new build loco projects.

Please call me to discuss your specific requirements.

FOR SALE – STANDARD GAUGE.

Hunslet 0-6-0ST "Cunarder" (HE 1690 of 1931). Powerful and historic industrial loco with Walschaerts valve gear. Half way through extensive overhaul. Can be restored as a side or a saddle tank loco. All components present. Ideal loco for heritage railway use.

Ex S & L **Manning Wardle 0-6-0ST** loco number 1762 of 1910 "Dolobran". Half way through a very extensive overhaul. Powerful loco when restored.

NER style **passenger brake van** – dual braked. Very good condition.

4 wheel box van. Two 4 x wheel **oil tank wagons** - restored. Bogie **Weltrol** wagon. **Dogfish** ballast hopper wagon. Vacuum braked. Body needs some replating.

1 x **Jim crow**, standard gauge. 1 x Jim crow, narrow gauge. 2 x standard gauge **re railing ramps**.

Oerlikon **air brake valves, distributors, relay valves** and emergency **brake valves** – believed to have come off long since dismantled **Harsco Rail grinders** and stone blowers. Some Westinghouse pressure **governors** now also available.

All items can be viewed by appointment.

Offers are invited for all items.

Rail Operations & Compliance Consulting

With over 20 years' experience across standard gauge mainline and heritage railways, narrow gauge systems, and leisure park operations, I provide practical, real-world rail consulting that works on the ground—not just on paper.

I remain actively involved in daily railway operations, managing my own railways and holding a senior role on a standard gauge heritage line. Meaning my advice is current, regulator-aware, and proven in live operating environments.

Services include:

- Safety, Compliance & Maintenance Management Systems (SMS, CMS, MMS)
- System development, review, auditing, and continuous improvement
- Practical project and development support
- Competency frameworks and assessments
- Railway asset and operational valuations

Whether you're developing a new operation, improving compliance, preparing for audit, or delivering infrastructure and rollingstock projects, I offer clear, practical guidance backed by years of hands-on experience.

Get in touch to discuss your project, challenges, or compliance needs.
